

NCRTD
RFP – Transit Advertising Services
Questions/Clarifications/Addendum

- 1.) Q. Do the “20 fixed routes,” referred to on page 3 include Española’s in-town units which operate primarily within City limits? If so, how many routes, number of units and type of bus are used just in Española?

A. This does include Española’s two in-town routes (Riverside and Westside) which are serviced by three 13-passenger cutaways (Riverside 2, Westside 1).

- 3.) Q. On page 6 of the RFP, there’s a mention of “billboards?” (Page 6, Section 4.3.e.2)

A. Our original Advertising Policy did include a billboard that might exist on property at the NCRTD facility in Española, but that was ultimately stricken from the Policy, therefore budget proposals will not be expected to provide estimated printing and production costs for billboards.

- 4.) Q. Could you provide clarification on size and types of buses in your fleet?

A. See following list of current fleet. In addition, we are currently out to bid on 4 new vehicles:

- 1 14-passenger vehicle with two wheel chair positions
- 1 18-passenger vehicle with two wheel chair positions
- 1 28-passenger vehicle with two wheel chair positions
- 1 40-passenger vehicle with two wheel chair positions

Addendum:

- 1.) **Term:** In reference to contract term, referred to on paragraph 2, page 2, under Section 1-Overview of RFP, we are open to consider an initial term of three years with the ability to renew annually for an additional one year.
